Subject: Re: Todd Hilditch-Ucolo Exploration

*Per this e mail please
change the due date for
Task 4456 to 12/23/2011.*

Consider this e mail to be an approval of your request.

Rec'd by e mail 11/9/11

The letter discussed providing site-specific calculations to determine the surety amount, and I encourage you to do this. If you do, I suggest you talk with Wayne Western (801-538-5263) who can provide detailed information about what would be required for these calculations.

Paul,

Thank-you for your return call this morning and I appreciate you allowing us, Ucolo Exploration, an extension with regards to the letter we received a couple weeks ago via fedex relating to the Ticaboo Stockpile Removal Project S/017/0001.

The Division letter outlines three (3) items:

- Surety review and significant increase
- possibility of combining NOI's
- update regarding inactivity and status of project

As you point out in your letter, the surety review and required increase to that surety amount from \$6,000 to \$22,000 is a significant bump up by the Nov. 25 bond renewal date.

I need to consult with Nancy Wolverson, VP Exploration and Mr. Richard DeLong, Enviroscientists Inc. regarding the review of our options you lay out for the surety renewal, as well as the possibility of combining the NOI's and providing an update.

The problem and reason for the 28-day extension request is that Rich has been out of country until last week and has not been able to review the

Division's letter and options. He has told me he will be able to review and discuss with me next week which would limit my ability to deliver what the Division requests in a timely fashion. As well, Nancy has been in the field on a gold drilling project with limited cell coverage and time to review our options.

In order to comply properly with your letter with the appropriate review time, I humbly request the 28-day extension from November 25th to December 23th, 2011 (to avoid a date of December 25th on a 30 days extension!).

Thanks again Paul. If you could kindly return an email that you received this email and confirm the extension approval, I would appreciate it.

Regards,

Todd Hilditch, President

Summit Point Uranium Corp. / Ucolo Exploration Corp.
